

# A WAY WITH WORDS

A VERY GENTLE INTRODUCTION TO CREATIVE WRITING

Everyone has a story to tell, about their past or from their imagination. In this introductory workshop, award-winning writer and actor, Ted Stanley, shares some simple techniques for generating ideas, the structure of stories, engaging the reader, avoiding pitfalls, making it memorable and other ideas to help you get those stories out of your head and onto the page.

A fictional story, a magazine article, your memoirs, or just a letter to your children or grandchildren, this short taster session to our six-week programme will help you express your ideas and make your work a pleasure to read.
